

INGEST, EDIT, ARCHIVE, MANAGE, DELIVER!

High Performance Storage and LTO Archival

TOLIS Group's ArGest® Studio Rack 1U and ArGest® Mobile Desktop Cube

Portable Archive and Ingest - The Road is No Longer a Dangerous Place For Your Data

TOLIS Group's ArGest® LTO with integrated 2-16TB SSD or 4-8TB HDD onboard storage units are self contained portable kits that provide incredibly fast high-speed storage and industry standard LTO backup and archival in a single, quiet, easy to use road warrior configuration for editors, videographers, music production/front of house teams, photographers, and other creative artists in the field.

You shouldn't have to wait; ArGest makes sure that you won't!

The ability to ingest a REDMag at full performance, while editing a 5K sequence and archiving footage to LTO-5, LTO-6, LTO-7, or LTO-8 media at full speed from the same late-model Mac Book Pro means that you can spend more time doing what you want to do with your data instead of waiting for your data to become available on your portable system while on location.

With sustained Thunderbolt 1 media ingest speeds of up to 800MB/sec (SSD systems) or 1.4GB/sec (Mac Pro), 500MB/sec (HDD systems), LTO-7 and LTO-8 speed averaging 322MB/sec, and LTO-6 speeds of over 180MB/sec (.65TB/hour) using your choice of BRU Producer's Edition or BRU Server software (included), the road is no longer a dangerous place for jobs generating large amounts of data.

PRODUCT HIGHLIGHTS

Available in SSD and HDD rack mount and desktop configurations - performance and capacities for most budgets

Easily connected via SAS or Thunderbolt - full performance and plug and play operation in either configuration

The ArGest® Cube is over 40% quieter than other external tape devices (even ours) - quiet operation means that you hear what you're editing, and are not distracted by loud fans

Easily perform ingest, edit and archival operations simultaneously - performance of over 1GB/sec (SSD) and 500MB/sec (HDD) means you don't have to choose one task over another

Long Life, enterprise class disks and long term LTO-based storage life - 2+ Million hours MTBF 2.5" disk and 50+ years LTO storage mean that you only need to worry about getting the shot rather than if you'll be able to actually edit it later

BRU Producer's Edition™ and BRU Server™ software make archiving a snap - whether you're a one person shop, or part of a major studio operation, the BRU software solutions provide easy to use operation and easy to share archives thanks to BRUsetta Stone "wrap" CD/DVD and easy tape import

TOLIS Group provides and supports CatDV and DAX Broadcast Archive add-ons to all BRU Server™ ArGest® unit for Digital Asset Management (DAM/MAM), all supported by TOLIS Group

ARGEST® RACK AND CUBE UNITS

Units are 6GB SAS and come with the below listed storage, integrated LTO-8, LTO-7, or LTO-6, tape drives, SAS HBA, SAS cables, media, cleaning cartridge, BRU Producer's Edition™ or BRU Server™ license, three year hardware warranty and three year software support and maintenance.

All technical support and warranty is provided directly by TOLIS Group Technical Support, with one phone call to TOLIS Group Technical Support for all components.

ArGest® Studio 1U Rack 2-16TB

ArGest® Rack SSD units

ArGest® SSD 20 Rack	2TB, 4 x 500GB SSD
ArGest® SSD 40 Rack	4TB, 4 x 1TB SSD
ArGest® SSD 80 Rack	8TB, 4 x 2TB SSD
ArGest® SSD 160 Rack	16TB, 4 x 4TB SSD

ArGest® Rack HDD units

ArGest® HDD 40 Rack	4TB, 4 x 1TB 7200RPM Disk
ArGest® HDD 80 Rack	8TB, 4 x 2TB 7200RPM Disk
ArGest® HDD Rack Expansion units,	16, 32, and 80TB

Add CatDV and DAX for DAM/MAM

Add thunderbolt options for Thunderbolt connectivity

ArGest® Mobile Desktop Cube 2-16TB

ArGest® Desktop Cube SSD units

ArGest® SSD 20 Cube	2TB, 4 x 500GB SSD
ArGest® SSD 40 Cube	4TB, 4 x 1TB SSD
ArGest® SSD 80 Cube	8TB, 4 x 2TB SSD
ArGest® SSD 160 Cube	16TB, 4 x 4TB SSD

ArGest® Desktop Cube HDD units

ArGest® HDD 40 Cube	4TB, 4 x 1TB 7200RPM Disk
ArGest® HDD 80 Cube	8TB, 4 x 2TB 7200RPM Disk

Add CatDV and DAX for DAM/MAM

Add thunderbolt options for Thunderbolt connectivity

***ArGest® units normally ship configured for RAID 0 (striped) operation for performance and capacity. RAID 5 is available, please specify RAID option when ordering.

- Adding the Sonnet Thunderbolt to SAS bridge units allow the units to be used with any Thunderbolt-enabled Mac
- BRU Server™, BRU PE™, CatDV and DAX software only options available to add to your existing hardware configuration
- Larger tape libraries of up to 540 slots and forty two tape drives available.
