

ArGest® Ingest™ and Ingest™ Pro

Simple Data Recovery Software

Click-and-Go with ArGest® Ingest™!

The ArGest® Ingest™ software line provides an incredibly easy to use click-and-go-tool for ingesting BRU, LTFs, and tar tapes as well as disk and camera card data onto your Mac OS X system in a single button click!

Just insert your tape, click, and let ArGest® Ingest™ do the rest.

ArGest® InGest for use with standalone tape drives part#67980 list \$499USD

ArGest® InGestPRO for use with automation/library tape units part#67981 list \$999USD

License packs at discounted pricing are also available starting at 5+ units, and discounted pricing applies for owners of current versions of BRU software.
